Pershing General Hospital is an Equal Opportunity Employer & Drug and Alcohol-Free Workplace

All PGH positions are Safety Sensitive

### Role Overview

Performs examinations on patients as prescribed by the physician to provide quality-imaging studies, regarding patient condition for diagnostic purposes. Reviews studies for clarity and accuracy, and may take additional films to assist the Radiologist.

### Essential Functions/Accountabilities

Exhibits behaviors that are consistent with the Mission, Philosophy, and Values of Pershing General Hospital and Nursing Home as well as the culture and objectives of Pershing General Hospital and Nursing Home. All employees are expected to work as needed in providing health and wellness services in the communities within Pershing General Hospital and Nursing Home.

Demonstrates effective skills with the communication, organization and management of assigned work.

Performs diagnostic exams independently to physician's orders in using correct modalities to assure accurate and optimal diagnostic results.

Retrieves and returns patient to appropriate area and prepares room for next study in timely fashion with a friendly customer service attitude.

Records appropriate patient information and maintains all records according to established guidelines. Performs regular quality control checks and required paperwork as necessary to comply with regulatory standards.

Maintains a safe environment for patient and staff, to include the ALARA Concept as prescribed by PGH, NAC and applicable standards of care.

Demonstrates a basic understanding of Quality Improvement/Quality Assurance in the organization.

Demonstrates knowledge of radiation safety procedures, exposure factors, and restraint methods to ensure quality of patient care.

In addition to the responsibilities described above, the role may include other responsibilities and duties as assigned on occasion, based upon Pershing General Hospital and Nursing Home's needs or requirements.

### Qualifications

Education/Experience: Completion of an accredited program in Radiologic Technology or Ultrasound. Six Months experience in X-ray and CT or US. 24 hours of continuing education every 2 years.

### Technical Skills

To be able to perform examinations in X-ray and Computerized Tomography or Ultrasound.

Other qualifications/certificate/license: ARRT or eligible within six (6) months of hire or equivalent education; basic CPR Certification within three (3) months of hire; on the job training. Covers call and works holidays and shifts as required.

Behavioral Competencies:

Support Pershing General Hospital and Nursing Home's vision and mission.

Maintain confidentiality of all work information.

Demonstrate an ability to function successfully in a team environment.

Exhibit courteous, compassionate and respectful treatment of internal and external customers.

Displays a positive attitude and flexibility in changing situations.

Participates in identifying problems and suggesting solutions.

Compliance with PGH standards of conduct and ethics.

Adherence to the provisions of Radiation Safety & ALARA concepts

Other: All positions at Pershing General Hospital and Nursing Home are safety sensitive positions due to the contact with patients and the nature of the healthcare business.
